FOREWORD

The 18th All India Livestock Census covering poultry as well as agriculture implements, machinery and fishery statistics conducted in the state of West Bengal was completed in scheduled time by the Directorate of Animal Resources and Animal Health, Government of West Bengal, with 15th October 2007 as reference date.

This report has been prepared to be very effective with rural/urban as well as mouza/parawise elaborate breakups for each district. Moreover the introduction of a Geographical Information System (GIS) since last census year with digital mapping of livestock data at mouza, G P, Block, Sub-Division (Rural) and District (Rural) level for rural areas and ward, Municipal area, Sub-Division (Urban) and District (Urban) level for urban area has added new dimension to the livestock census of our state.

In this connection I greatly appreciate the well coordinated team work of Dr. P. K. Bhattacharjee, Joint Director of Animal Husbandry (Statistics) as well as Additional State Livestock Census Officer, Shri T. R. Nath, Statistical Officer and Deputy State Livestock Census Officer, 18th Livestock Census, along with other Officers and Staff of the Animal Resources Development Department in making the 18th Livestock Census a successful one.

Like previous years this census report will be most utilized in formulating different welfare plans and schemes for the state as well as in various relevant research projects.

PREFACE

The final report of the 18th All India Livestock Census for the state of West Bengal with reference date 15th October 2007, has been successfully prepared within due time. This vast well compiled report with district-wise mouza/para level data consists of updated basic data on livestock and poultry population, agriculture implements and machinery, fisheries and livestock and fishery infrastructure.

The team of officers whose hard work and co-operation has been indispensable for the timely completion of census work and publication of the report are Dr. P. K. Bhattacharjee, Joint Director of Animal Husbandry (Statistics) and Shri T. R. Nath, Statistical Officer and Deputy State Livestock Census Officer, 18th Livestock Census, along with innumerable district and state-level Livestock Census Officers and Staff.

The information provided in the report will prove very useful to all those who use animal husbandry related data in their respective work areas.

INTRODUCTION

The Directorate of Animal Resources and Animal Health, Government of West Bengal in co-ordination with Government of India, Department of Animal Husbandry, Dairying and Fisheries, has completed the 18th All India Livestock Census in the state of West Bengal in due time. Apart from enumeration, supervision, compilation and tabulation, this huge census work also involves publication of both hard and soft copies of the report

Dr P. K. Bhattacharjee, Joint Director of Animal Husbandry (Statistics) and Additional State Livestock Census Officer, 18th Livestock Census, West Bengal, Shri T.R. Nath, Statistical Officer and Deputy State Livestock Census Officer, 18th Livestock Census, West Bengal and many other Officers and Staff of this directorate have efficiently shouldered the responsibility of completing the census work with perfection.

Planners as well as all people working in animal resources and associated sectors will be amply benefitted from the useful findings of this elaborate census work.

TECHNICAL ASPECTS OF THE 18TH LIVESTOCK CENSUS

The total count of livestock population and its composition is available from the livestock census, which is the most important single source of data. The Department of Animal Husbandry, Dairying and Fisheries, Ministry of Agriculture, Government of India, conducted the 18th Livestock Census with reference date 15th October 2007. The census operations are carried out in different States and Union Territories by the respective State Governments. Undoubtedly an expensive statistical exercise this census it is indispensable for understanding the demographic structure of our livestock so as to be properly equipped to carry out livestock improvement programmes in the country. The livestock census covers not only livestock but includes information on fisheries and agricultural implements and machinery.

In 1919-20, the first livestock census of cattle was conducted. The subsequent censuses were conducted at intervals of five years. 18 such livestock censuses have been completed till now.

In the 18th Livestock Census, breed-wise data of indigenous cattle, buffalo, sheep, goat, pig and fowl was collected for the first time in the State of West Bengal. In the present report the cross-bred and indigenous cattle have been clubbed together as in the earlier reports for comparability with the past.

Canvassed schedule of enquiry in each household obtains information on 512 items for each household. In addition, information on another 127 items on livestock and fishery infrastructure and commercial poultry birds stock is collected for each mouza, ward and each commercial poultry farm. Field workers undertake house-to-house enumeration to ascertain stock of livestock, agricultural implements and machinery, fishing craft and tackle (as well as number of persons engaged in fishing and ancillary activities), etc., possessed by households and institutions. The field work is mainly conducted by primary workers, consisting of staff drawn from the Animal Resources Development Department and Pranibandhu personnel¹.

State-level training of trainers was arranged at Barasat, in the district of North 24 Parganas. A manual of instructions was circulated to all districts. State-level Livestock Census Officers and Headquarters Officers of the Statistical Cell also trained the block/municipality/sub-division Livestock Census Officers. The trained officers in turn trained the enumerators in the field work. A tabulation manual was prepared and sent to all districts to obtain the data in tabulated form.

Livestock, Poultry, Agricultural Implements and Machinery, and Fisheries are the four main parts of the Livestock Census. As these four parts involve a huge amount of data compilation, appropriate software called LCMS (Livestock Census Management System) has been developed. In West Bengal, Geographical Information System (GIS) has been developed for digital mapping of livestock data at all levels for each district. The systematic data base prepared in the 18th Livestock Census goes down to the level of mouza/para. The district profile includes pictorial graphs and the write-up gives a comprehensive account of the State's livestock position.

¹ Educated unemployed youths trained in livestock care by Paschim Banga Gauripad Bikash Sanstha, a Govt. of West Bengal organisation

I would like to place on record my deep appreciation for Sri Anisur Rahaman, Hon'ble Minister-in-Charge, Animal Resources Development Department, Sri D.K. Chakraborty, IAS, Principal Secretary to the Government of West Bengal, Animal Resources Development Department and Dr. K. Saha, Director of Animal Husbandry and Veterinary Services, Directorate of Animal Resources and Animal Health for their constant encouragement in compilation of the Report on the 18th Livestock Census. Their valuable suggestions have greatly contributed to the successful completion of the Livestock Census.

We are thankful to Dr. D.K. Das, Chief Executive Officer, Paschim Banga Go-sampad Bikash Sanstha, for his encouragement in the engagement of Pranibandhus in the enumeration work.

This report has received immense help and cooperation from all officers and staff of the Animal Resources Development Department. I wish to express my sincere appreciation to all of them for their whole-hearted support.

The preparation of the report has been made possible primarily due to the keen interest of Sri Tushar Ranjan Nath, Statistical Officer and Deputy State Livestock Census Officer, 18th Livestock Census, West Bengal who worked very sincerely and with great zeal in achieving the target of releasing the results in the shortest possible time. Sri Nath developed the aspects of computerization, digital mapping and analytical work, and prepared the district profiles with the Assistance of Dr. Arindam Kundu, Statistical Officer and Assistant State Livestock Census Officer, Smt. Supriya Roy, Bengali Translator and Assistant Livestock Census Officer (Publicity) of this Directorate has also worked hard to make possible the elaborate and informative introductory write up on each of the nineteen districts and for the state of West Bengal as a whole. I also acknowledge the contribution made by other officers and staff of the Statistical Cell in bringing out the results in a very short time.

The statistical help received from the Bureau of Applied Economics and Statistics, Government of West Bengal, Department of Animal Husbandry, Dairying and Fisheries, Ministry of Agriculture, Government of India and other different organisations/institutions for various analytical parts of the Report is thankfully acknowledged.

The management of Silpabarta Printing Press Ltd (a Government of West Bengal Undertaking) and workers deserve appreciation for their untiring cooperation in printing of books and computerized tabulation.

I am sure that scientists, researchers, policy planners and livestock data experts will benefit immensely from the information contained in this publication. We look forward to suggestions and comments on the information contained in this publication, which will be valuable for our future publications.

ACKNOWLEDGEMENT

In terms of Memo. No. 431-AR &AH, dt. 15.03.2009 of the Principal Secretary to the Government of WB, the 18th Livestock Census on Livestock, Agricultural Implements and Fisheries in the district of Hooghly was conducted in eighteen Blocks, eleven Municipalities and one Municipal Corporation. The job consisted of detail enumeration and to cover the whole aspects within the purview of the census.

A team consisting of 341 persons were engaged as District Census Officer, Asstt. District Census Officer, Sub-Divisional Census Officers, Block Census Officers, Tabulators and Enumerators to complete the job satisfactorily, within a time frame for compilation of the census figures for submission to the State Census Officer, in due time and every care had been taken for a flawless enumeration and tabulation.

For successful completion of the huge task of 18th Livestock Census, in a given time, I convey my gratitude to all my colleagues and Pranibandhus, engaged for the census work. I also convey my thanks to the Officers and Personnel, of all Sub-divisional Offices, Block Offices, Municipalities, Municipal Corporation, Panchayet Samities & Gram Panchayets for rendering there help for successful completion of the job.

HOOGLY DISTRICT PROFILE

INTRODUCTION :

The district with its head quarters located at Chinsurah town is within the Burdwan division of West Bengal. With an area of 3,145 sq. km. and a population of 5080047 according to 2001 census. This district has four subdivisions : Chinsurah Sadar, Chandannagar, Serampore, Arambag. The place name "Hooghly" has had a geographical connotation since the middle of the 16th century with the advent of the Portuguese and other European traders in the area. It was during that time that many of the erstwhile obscure villages on the West Bank of the Bhagirathi were transformed into urban areas and later into principal towns of the present day district. At the initial stage of its growth and development Hooghly was the foremost of those metamorphosed villages which lent its name to the district when it started taking shape as an administrative unit under the British towards the close of the 18th century

LOCATION :

The present Hooghly district is one of the six constituent units of the Burdwan Division and extends between 22°39'32" (right bank of the Rupnarayan river) and 23°01'20" (Guptipara Char on the Bhagirathi river) north latitudes and between 87°30'20" (Tilari village of the Goghat police station) and 88°30'15" (Bhabanipur Char on the Bhagirathi river) east longitudes.

It is bounded on the east by the meandering Bhagirathi, along the centre of the course of which runs the eastern boundary line demarcating, towards the north, the Sadar subdivision of the district from the Ranaghat subdivision of the Nadia district and towards the centre and the south, the Chandernagore and Serampore subdivisions from the Barrackpore subdivision of the 24-Parganas district. Except on the east, the boundaries, barring short distances covered by the Rupnarayan to the south-east, the Damodar to the south and the Dwarakeswar and the Tarajuli to the north-west, are artificial. The adjoining districts are : Burdwan (Kalna and Burdwan Sadar sub-divisions) to the north, Bankura (Vishnupur subdivision) to the north-west, Midnapur (Midnapur Sadar and Ghatal subdivisions) to the west and south-west and Howrah (Uluberia and Howrah Sadar subdivision) to the south.

ORIGIN :

The origin of the name by the district is connected with the settlement of the Portuguese first at Satgaon (Saptagram) in 1537-38 and then at Bandel and Hooghly. By the end by the 16th Century, Hooghly replaced Satgaon as the most important port for western Bengal and in course of time it came to be named after this thriving port-city which was then the nerve-centre of European trade in Eastern India.

It is commonly believed that the Portuguese settled at Hooghly about or immediately after 1575 with the permission by the Emperor Akbar and thus brought the present name of the place to prominence.

In the words of Sir Jadunath Sarkar before the Portuguese settlement, the petty village of Hughli contained only a number by straw huts and bamboo stockades in which the visiting Portuguese ships used to sell their cargo by salt from Hijli. It was called a ganj or mart. A store house of salt (or any other commodity) called a 'gola' which in the mouth of the Portuguese became 'O-GOLIM' and the Bengalis turned 'O-GOLIM' into "Hugli". This thereby is however challenged by another view that "Golin" was a corruption of "Hooghly" and not "Hooghly" a corruption of "Golim". The word 'Hooghly' was derived from "hogla" weeds with which the place was for the most part covered and hogla easily slides into gola in pronunciation.

The district of Hooghly, as we know it today, came into existence in 1795. After the office of the Fouzdar had been abolished, Hooghly was thrown into the background till it was again brought to the front by being formed into a district in 1795. Previous to this, the town of Hooghly and some parts of the district were within the jurisdiction of Nadia. But the major part of it was carved out of the district of Burdwan which had been ceded to the East India Company in 1760.

The district on its first formation was placed under the charge of Hon'ble C.A. Bruce, who became its Judge and Magistrate although the Collector of Burdwan still retained his jurisdiction in revenue matters over this area. Proposals were made even this early to constitute Hooghly into a separate Collectorate, but they did not then get beyond the stage of discussion.

Mr. Bruce held criminal jurisdiction over 13 police stations, namely Hooghly, Bansberia (now Magra), Benipur (now Balagarh), Pandua, Dhaniakhali, Haripal, Rajbalhat (now Jangipara), Jehanabad (now Arambagh), Dewanganj (now Goghat), Chandracona and Ghatal (both now in Midnapur district), and Bagnan and Amta (both now in Howrah district). The Baidyabati and Chinsura police stations came to be added to the district later. He was in charge of the district till 1799. The regime of his successor, Thomas Brooke, was characterized by serious attempts to enforce law and order as banditry had become a widespread menace to the district at the time. Thomas Brooke was succeeded by Ernest, "who, in addition to his proper title of Judge-Magistrate, was in 1809, also styled 'Superintendent and Commissioner of Chinsura, Chandernagore and Serampur', these cities having, in the interim, come into the hands of the English.

In 1819 Mr. R. Saunders was appointed 'Collector of Government Customs and Town Duties at Hooghly' and the Governor-General in Council was pleased "to annex to the above office the charge of the collection of the land and sayer revenue in the mehals at present, under the Assistant Collector at Hooghly". The desirability of making the civil, criminal, and revenue jurisdiction coterminous was considered by the Governor-General in Council. The difficulty in doing so arose from the disregard for a long series of years of the ancient local divisions of parganas, and the extraordinary manner in which the lands of most of the parganas were scattered and mixed up. The final orders of Government on the separation of the two Collectorates were not received until January 1821, and it was to take effect from 1st May 1822.

In 1824 the Magistrate complains of the want of a map of his district : - 'The boundaries of the foreign settlements and suburbs of Calcutta are very indefinite, and lead to constant trouble.' In 1826, on the people of thana Chandrakona representing the hardships they were put to in coming to Hooghly for criminal cases, the criminal jurisdiction was transferred to Midnapore, the revenue jurisdiction remaining with Hooghly. In 1837 the Magistrate brought to the notice of Government the extremely inconvenient arrangement of the thana jurisdictions which caused much hardship to the people. Thus Chanditolah was in thana Rajapore, nine miles off, instead of being in Bydyabati which was quite close. Mellia, where there was an indigo factory, was in thana Baidyabati, nine miles off, instead of being in Haripal, only one mile distant. These matters were gradually rectified. The separation of the magisterial jurisdiction of Howrah from that of Hooghly was carried out under Government Order No. 268 dated 27th February 1843.

In 1839 there were in all 9 Munsiffes in the district located at Hooghly, which were Naya Sarai, Mahanad, Baidyabati, Rajapur, Dwarhatta, Khirpai, Bali and Uluberia. With the establishment of two subdivisions in 1845 with headquarters at Dwarhatta and Khirpai, a new era of civil administration began in Hooghly. In 1859 the posts of Magistrate and Collector were combined. But it was only in 1879 that the district assumed more or less its present dimensions with the final delimitation of the subdivision of Arambagh.

In February 1843, the magisterial charge of Howrah which then consisted of the Salkia, Amta, Rajapur, Kotra and Bagnan police stations – became distinct from that of Hooghly. Since then several minor changes have taken place upto 1894. The next change in the area of the district was effected after a lapse of 56 years when on 2 May 1950 the Government of India took over the French territory of Chandernagore from its French administrators and this was ratified by the Indian Parliament on 9 June 1950. Subsequently, the Chandernagore subdivision was created on 2 October 1954. The latest of such changes took place only in July 1966 when the village Bahulpur was added to the Hooghly district from the Raina police station of Burdwan.

HISTORY :

It was probably included in the territory held by the Suhmas, a tribe mentioned in juxtaposition with the Angas, Vangas and Pundras in the Mahabhashya, a grammar dating back to the second century B.C.

In the third century B.C. the territory of the Suhmas was included in the vast empire of Asoka, which extended over the whole of Bengal as far as the mouth of the Ganges and upto Tamralipti (the modern Tamluk) Several centuries later this tract became absorbed with the rest of Bengal in the Gupta Empire, owing to a successful campaign by Samudragupta in the fourth century.

In the beginning of the seventh century, it appears to have been conquered by the powerful king of Bengal - Sansanka of Gaur. In the second quarter of that century it became part of the great empire of Siladitya Harshabardhan. The northern and eastern part of the district, however, passed into the hands of the Sena kings of Bengal.

The district remained under the rule of indigenous rulers till the 13th Century. The northern part of the district had passed into the hands of the Mughal Rulers by 1298 A.D. Colonial forces came later.

The district of Hooghly got its name from the town of Hooghly situated on the west bank of Hooghly River about 40 km north of Kolkata. Hooghly was a river port in the fifteenth century. The first European to reach this area was the Portuguese sailor Vascodagama. In 1536 Portuguese traders got a permit from Sultan Mahmud Shah to trade in this area. In those days the Hooghly River was the main way for transportation and Hooghly served as an excellent trading port. Within a few decades the town of Hooghly turned into a major commercial center and the largest port in Bengal. Later in 1579-80 emperor Akbar gave permission to a Portuguese captain Pedro Tavares to establish a city anywhere in the Bengal province. They normally chose Hooghly and thus Hooghly became the first European settlement in Bengal.

But the Portuguese traders started misusing their power. They started slave-trading, robbery and converting natives into Christians by pressure. At a time they even stopped paying taxes to the Moghul emperors. As a result emperor Shah Jahan ordered the then ruler of Bengal province, Kashim Khan Juini to block the city of Hooghly. This eventually led to war in which the Portuguese completely lost their ground here and were unable to rise again.

Among other European powers that came to Hooghly were Dutch, Danish, British, French, Belgians and Germans. Dutch traders centered their activities in the town Chuchura which is just south of Hooghly. Chandannagar became the base of the French and remained under their control from 1816 to 1950. Similarly the Danish settled in Srirampur. All of these towns are situated on the west bank of the Hooghly River and served as ports. But among these nations the British ultimately became most powerful. Initially they were based in and around the city of Hooghly like traders from other countries but in 1690 an agent of the British East India Company named Job Charnock decided to shift their trading center from the city of Hooghly to Kolkata. The reason behind this decision was the strategically safe location of Kolkata and its proximity to the sea (Bay of Bengal). As a result the center of gravity of trade and commerce in Bengal province shifted from the city Hooghly to Kolkata and Hooghly subsequently lost its importance as Kolkata prospered. Since the 'Buxar war' this region was under direct British rule until India's independence in 1947. After independence this district merged into the state of West Bengal.

Though the city of Hooghly is more than five hundred years old the district of Hooghly was formed in 1795 with the city of Hooghly as its headquarters. For administrative purpose in 1795 the district of Burdwan was divided into two parts. The Northern division being called Burdwan and the southern division called Hooghly. The Bengal presidency at that time was divided into 19 districts of which Hooghly was one. It became a separate collectorate in the year 1822 with Mr. W. H. Belli as the first Collector. The present collectorate building was constructed between 1827 and 1829 to accommodate the British troops. Later the headquarters shifted to the town of Chuchura. In 1843 the district of Howrah was created from the southern portion of this district. And in 1872 the south west portion of this district was merged into the district of Medinipur. The last change in area occurred in 1966

TOPOGRAPHY :

Being a part of the flat plains of the lower Gangetic delta, the topographical homogeneity of the district is remarkable. On the vast gradational surface the only marked topographical variations are those associated with the numerous shifts and diversions of the rivers, an unequal aggradation rendering some surface above flood level and others below water-table. The loops of broad interfluvies or doabs (do=two, ab=water) are barely, if at all, perceptible, the only noticeable relief being the floodplain bluffs and embankments. There are, however, important surface differences within the general pattern of alluvial plains calling for a more detailed study.

The district may be broadly divided into two main natural divisions, a) the plains and b) the uplands, the river Dwarakeswar forming the dividing line between the two.

Variations in sea-level and lines of natural drainage : The tract of land lying between the Bhagirathi and the Dwarakeswar is a flat alluvial plain intersected by a number of sluggish rivers and streams. The area displays some of the most classical examples of old streams, perennial or intermittent, occupying young valleys.

Subregions within the flat alluvial plains : The flat alluvial plains may again be subdivided into three regions, namely (i) the Dwarakeswar-Damodar interriverine plain, (ii) the Damodar-Bhagirathi interriverine plain and (iii) the char lands and the meander loops. The Dwarakeswar-Damodar interriverine plain has low-lying & ill drained portions where seasonal marshes are formed. This region is also liable to flood during the rainy season as big rivers bounding this tract namely the Dwarakeswar & the Damodar are gradually having their beds raised by annual deposits by silt and sand.

The uplands : The other major natural division of the district is the triangular portion west of the Dwarakeswar comprising the Goghat thana and having an area of about 146 sq. miles (378 sq. km.) which is a little less than one-eighth of the district area. Here there is a perceptible rise in elevation and surface undulations start from the Dwarakeswar westwards.

SOIL :

The entire district is covered with alluvia-of two different types : older alluvium and newer alluvium. The rest of the district is mantled by newer alluvium mainly composed of sands, silts and clays brought by the rivers. The eastern part of the district has been built up by the deposits of the Bhagirathi, the western parts of the Hooghly and Serampore subdivisions by those of the Damodar, and the Arambagh subdivision by the combined precipitation of the Damodar, the Mundeswari and the Dwarakeswar.

CLIMATE :

Hooghly has a tropical savannah climate. The annual mean temperature is 26.8°C , although monthly mean temperatures range from 16°C to 33°C and maximum temperatures in Hooghly often exceed 38°C . The main seasonal influence upon the climate is the monsoon. Maximum rainfall occurs during the monsoon in August and the average annual total is above 1,500mm. Moderate northwesterly to northeasterly winds prevail for most of the year with a high frequency of calms. Summer is dominated by strong southwesterly monsoon winds. Winters are comfortable with temperatures lying between 11 to 17°C .

ECONOMY :

Hooghly is one of the most economically developed districts in West Bengal. It is also the main jute cultivation, jute industry, and jute trade hub in the state. There are also a number of industrial complexes

including one of the largest car manufacturing plants in India, the 'Hindustan Motors' plant located in Uttarpara. The jute mills are located along the banks of the river Hooghly in Tribeni, Bhadreswar, Champdani and Sreerampur.

WATER RESOURCES :

In more senses than one, the rivers of the Hooghly district provide a key to its geography, regional economy, socio-political pattern, cultural heritage and history. The entire district is a gift of these waterways, notably the Damodar group, though at present the Bhagirathi is more important, especially as a splendid avenue of communication. At least in its lower reaches, it may be the busiest river in India and the mainstay of the river systems of south-west Bengal. The Damodar group of rivers rises from the Khamarpat Hills of Chotanagpur plateau and enters the district from the west and north. Sudden and very high flood discharges, with notorious destructive capacity, a dense dendritic network of numerous nonperennial tributaries and dry, shallow, wide river beds characterize this river system. Both the Damodar and the Bhagirathi groups are remarkable in another way, namely their tendency to take prodigious jumps by cutting through narrow necks of land for straightening and shortening their courses. This phenomenon, in the case of the Damodar, has often resulted in the abrupt dereliction of prosperous riparian settlements which form today an interesting ingredient of the social and cultural landscape of the district.

There are no lakes in the district, but a number of large catchment basins are seen in which water accumulates during the rains forming marshes. These swamps contain some water even in the summer months. Most of these marshes are of considerable size and are to be found in Pandua, Polba, Chanditala, Jangipara, Uttarpara, Pursura and Khanakul police stations. The district, being a low-lying tract with an abundant rainfall and intersected by three large rivers and numerous smaller streams, suffers more frequently from floods than from drought.

The section of the Bhagirathi forming the eastern boundary of the district is navigable throughout the year. The Howrah Bridge, however, does not permit ocean going vessels to ply further up the river. The Damodar was once a navigable waterway up to Asansol when Raniganj coal and agricultural produce used to be ferried to Calcutta along its course. Due to the deterioration of the Damodar channel such cross-country traffic has come to an end. Previously, country boats used to handle all agricultural traffic in the interior of the Hooghly and Howrah districts. But today most of the channels have been silted up and no country boat can ply on them except during the monsoons. The tidal flush, which alone allows water borne traffic during the dry seasons, moves only up to Amta.

The left bank irrigation-cum-navigation canal taking off from the Durgapur headworks and connecting the Hooghly industrial belt is a very important addition to the inland water transport system of the district.

FLORA & FAUNA :

The vegetation of the district has been shaped as much by human agencies as by climate and soil. Continued exploitation and maltreatment of flora have destroyed the forest concentrations of the district and have replaced them at places by scrubs, savanna grasslands, swamps and such biotic or bioedaphic growths as represent anything but climax stages. Thus, urbanization, agriculture, pasturing, protection or destruction of trees, rearing of exotic plants etc. have caused important changes in the structure and composition of plant communities. The original climatic climax vegetation, such as the forests in the Arambagh subdivision, has long since become derelict.

It is seldom realized that many of our common fruits and flowers of today were altogether unknown before the Portuguese came to this district. "Tabacco and potato came from North America, from Brazil they brought cashewnut (*Anacardium occidentale*), which goes by the name of Hijli badam because it thrives so well in the sandy soil of the Hijli littoral. The cultivation of this valuable nut is limited to a narrow

strip of the sea coast but the papaya (*Carica papaya*) and the pineapple have taken more kindly to the soil of Bengal and few are aware that they are aliens of comparatively recent domicile. We are indebted to the Portuguese for Kamranga (*Averrhoa carambola*) which finds so much favour with our children. To this list may also be added Peyara (*Psidium guajava*), which found an appreciative poet in Monomohan Basu. The little Krishnakali (*Mirabilis jalapa*) that cheers our countryside with its yellow, red, and white is another gift of the once dreaded Feringi. This does not exhaust the list of plants that the Portuguese introduced in Bengal, but, incomplete as this inventory is, it fairly illustrates their zeal for the art and science of agri-horticulture. Of the crops grown in the district some 50 are natives of India, four-fifths of which grow during the rains and the rest in winter. These consist of vegetables of various kinds, cereals, pulses, oilseeds etc.

In Arambagh subdivision there is a Forest Range under the Burdwan Forest Division. Other parts of the district are excluded from the attention of the Forest Department. The Arambagh Range is divided into two forest beats, namely Chandur and Bhadur; the former has two sub-beats, Paradra and Babla, and the latter only one, Rangamati.

Before the promulgation of the West Bengal Private Forest Act, 1948, wanton exploitation and perfunctory management of forest resources, lack of fire protection, unrestricted grazing, soil erosion etc. were the rule. Deforested zones suffered heavily from soil erosion (mainly sheet erosion) and turned into vast waste lands. Since the abolition of the zemindary system in 1953-54, large tracts of forests have come under the direct management of the State and afforestation and other schemes to arrest soil erosion have been taken up. Today the district's forests are mostly the products of planned afforestation schemes. Afforestation operations are based on a very close examination of local soil-plant relationship for obtaining the optimum results. To conserve rain-water and to retain the fertility of the soil, cattle proof trenches are being dug wherever necessary.

IMPORTANT PLACES :

Bandel Church

Monastery. In front of the Church stands a ship's mast which was presented by the captain of a vessel which had encountered a storm in Bay of Bengal and saved by the grace of Virgin, the center of attraction. There is the statue of "Our lady of Happy Voyage" in the middle of the church. The church has three altars, a small organ & several tomb stones.

Imambara : The Imambara building having a masonry revetment is situated on the bank of river Ganges at Chinsurah. The place is nearest to the railway station "Hooghly" on the Howrah Bandel main line and from Hooghly station the rickshaw or auto rickshaw is available to

Bandel Church : Bandel, (the name came from the Bengali word "bandar" which means "port") appears to have been the port of Hooghly at the time of Portuguese and Mughals. The only relics of the Portuguese settlement are the Church(Basilica) and the monastery. It is about 2 kms away from the station 'Bandel'. The present church and monastery are said to be built in 1660 by Gomez de Soto having the key stone of the old church bearing the date 1599 over the eastern gate of the

Imambara

reach the place. The building was started in the year 1841 by Haji Mohammad Mahasin & was completed in the year 1861 at a cost of Rs. 2,17,413/- including a clock procured from England at a cost of Rs. 11,721/-. The two storied building consisting of ranged rooms having a wide entrance of main gate flanked by two nos of giant towers measuring 80 ft. tall & a massive clock tower in between them. A mosque, the walls of which are decorated by the texts from the Holy Koran and the interior of the mosque is enriched with inlaid marble and carvings, candle and lanterns. The mosque is situated at the north side of the building. At the south there is an enclosed compound where the graves of Md. Mohasin & his relatives are present.

Chandernagore Strand : A beautiful tourist spot along the banks of the river Ganges. It is a superbly decorated pavement studded with lights surrounded by lushly green trees. It is about 1km in length and 7 m in width, and many buildings with historical importance surround the spot. It is a very popular visiting spot of the local people and the tourists would love to stroll along enjoying the mild breeze and watching the small boats sail by. Along the strand are present Vivekananda Mandir (a meditation centre) and a protruding structure into the river Ganges. This is supposed to be the best decorated bank of the river along its entire length of 2500 km.

Fur Furah Sarif

Fur Furah Sarif : In Jangipara a Sufi settlement established during Akbar's reign. A mosque pre-dating the settlement was built by Muqlish Khan in 1375. Now a site for Muslim pilgrimage, especially during the Pir's Mela every year.

Goghat : The birthplace of Shri Ramakrishna. The temple, built in 1951, is a site of international pilgrimage.

Kamarpukur : Shri Ramakrishna Temple, Kamarpukur

Debanandapur : A village of Hooghly district about 3 kms. west from Bandel Station is connected by the auto service. It is the birth place of 'Katha Silpi' Sarat Chandra Chattopadhyay. This village is one of the seven important villages named 'Sapta Gram' at the time of Mughals. On 17th September 1875 Sarat Chandra was born in this village. The dwelling house of Katha Shilpi along with a separate drawing room is still present in the village. A Library named Sarat Smriti Pathagar including a museum room containing the used things of the famous writer is also present there. There are also four 'Atchala' temples of 19th century present in the village. An old 'Dol Mancha' can be seen for the interest in archaeology.

Hangseswari Temple : This is one of the very important temples among all the temples in Hooghly District & seven in West Bengal. The structure of the temples is the representation of 'Tantrik Satchakrabhed'. This 5 storied 'thirteen ratna' temple is situated near the Bansberia and Tribeni railway stations both of which is on the Howrah-Katwa main line. Near to this temple there are also two other important temples named Ananta Basudeba Temple, which is decorated with very rich terracotta pointed plates and Swarnabhaba Kali Temple built by Nrisinhadeb in 1788.

Temples In Balagarh : The Brindavan Jew temple in Guptipara is actually a cluster of four 17th century terracotta temples. Local legend has it that Clive visited this temple before the Battle of Plassey and presented one of his swords to the mahanta.

Hangseswari Temple

Guptipara is also the site of a well-known Ratha Yatra. There is another cluster of three temples - Ananiamovee, Horosundari and Nistarni at Somrai. The temple at Dakshineswar is said to be modelled on these. The Rasi Mancha at Supur Bagan, a product of Vaishnava culture, has unique wood carvings.

Nritya Gopal Smriti Mandir : Built on the Grand Trunk Road in 1860 by the zamindar Harihar Seth, this building is an example of the confluence of native and colonial styles of architecture. It now houses a public library. Harihar Seth's own house in Palpara was built at the same time, with similar Tuscan columns and facades.

The Hooghly Collectorate : The Hooghly Collectorate was originally built as a barracks for Dutch soldiers in the late 18th century. The District Gazetteer notes that there were originally tunnels to the river for clandestine loading and unloading of boats, as well as dungeons. The western rooms on the ground floor are said to have been used at one time as elephant lines. The Dutch Officers were quartered in what is now the Circuit House.

The Hooghly Collectorate

Serampore College

Antpur Math : In Jangipara, Swami Vivekananda along with 8 other disciples of Ramakrishna Paramahansa took his oath of asceticism here. It is maintained by the Ramakrishna Mission.

Serampore College : Of all colleges in the district imparting general education, this college founded in 1818, is the oldest. Its first governing body consists of William Carey, Joshua Marshman, William Ward and the Danish Governor of Serampore. Its syllabus was designed as "Eastern literature and Western Science". From the very beginning there was a Theological department for training of Ministers for

the Christian churches in India along with the other wings. In 1827 King Frederick VI of Denmark granted the college a charter of independent university as Copen Hagen and Kiel, conducting the 3- year Bachelor of Divinity, 2- year Master of Theology and the Doctor of Divinity courses. Now a part of this college has been changed to the museum. Carey Museum is still in its formative stage. It is to preserve the reminiscence of founders, but it also presents a vivid picture of awakening of Bengal during the years of its renaissance.

Joy Krishna Library : The library was established by the famous Social-reformer and Zamindar Joy Krishna Mukhopadhyay in the year 1261 (according to Bengali New Year). The first free of cost and largest reference library in India at that time.

Watch Tower : It is situated at the middle place of Chinsurah town. The four faces of which indicate the directions. In 1914 'British' emperor Edward established this steel made hollow clock tower resembling a tomb. On the top of the tomb there is a flag hoisting point on the four sides of which there are four beautiful lamp sheds. The clock is situated in the middle portion of the tomb.

Joy Krishna Library

Light House Tomb, Parbatichak : It was constructed between 1745 and 1750 during the reign of Ali Vardi Khan as a watchtower to warn of Maratha raiders. Subsequently used during the cartographical survey by the British.

The Church Of St. Olaf : A Lutheran Church in Serampore, consecrated to the patron saint of Denmark. Built by Colonel Bie, the Danish Governor, in 1805 William Carey conducted the first service here.

Suakhal & Moyur Mahal : There are two picnic spots by the side of Delhi Road nearest to the Bandel station. In both the places people can enter by giving a nominal entry fee. In addition to other facilities, boating also can be enjoyed in both places. At Suakhal there is an interesting science exhibition like talking robot, danger cave etc. This place is maintained by Hooghly Zilla Parishad.

Light House Tomb

Residence Of Divisional Commissioner, Bardhaman Division

Residence Of Divisional Commissioner, Bardhaman Division : The residence of the Divisional Commissioner, Bardhaman Division at Chinsurah is one of the oldest Government Buildings in continuous use in West Bengal. The original structure dates back to the 1670s. It was renovated and extended in 1840.

Church Of Sacred Coeur De Jesu : The Rev. Monsieur Barthelet laid the foundation in 1875. This two-storied church with Florentine-style stained glass windows was completed in 1884 and the inaugural service was conducted by the Rev. Dr. Paul Goethals.

Chandannagore Museum & Indo-French Institute : Among the cultural organizations of the district, the most important is the "Institute De Chandannagar" is State-managed (Education Department) and recognized by the Government of India and France. The residence of the last white French Administrator was set apart as an union property for locating the cultural centre but the supposed lack of French interest and paucity of French surveyors led to an alternate proposal being mooted in March 1955 for having a municipal museum. In February 1965 Monsieur Pompidue, the French Prime Minister by discussion with Lal Bahadur, Shastri mutually agreed to set up the cultural centre with Indo-French collaboration not merely for the parochial benefit of Chandannagar, but for the Eastern India as a whole in 1966.

The library and reading room were started with the donated book of Harinri Sett, a prominent citizen of Chandannagar alongwith a separate children's corner. In 1956 the art gallery and museum were already started. The museum contains exhibits

connected with local history of Chandannagar, things used by Duplex including a marble bust of him, various crafts and archaeological evidence (un) discovered in the District since the Gupta period. The library is indeed a rich storehouse of information relating to the administration of the last white French pockets in India.

Chandannagore Museum

Shanderswartala : It is the most important and oldest temple in Chinsurah. From the Chinsurah Railway station it is about 5 Kms. to reach this temple. The visitors can avail autorickshaw or paddle rickshaw to reach the place. It is at the bank of the Ganges at the north of the Duttaghat. In 16th century Digambar Halder placed the Lingam of Shiva & afterwards the temple was established by Siddheswar Roychodhury. Dutch Governor presented a 'Dhak' made of brass which is still used in this temple. There is also a Durga temple which was established on 1845.

Buddha Temple, Deulpara : It was inaugurated by His Holiness the Dalai Lama in February 1985. Has a beautiful garden and statue of the Buddha.

Chandernagore Church : The beautiful church stands over for two centuries to mark the beauty of the architecture during the French period - a good place to visit for the historians and tourists. The remains of the church at St. Louis is also an attractive tourist spot.

The Underground House (Patal Bari) : The building is another beautiful example of the advancement in the knowledge of architecture and the aesthetic sense of the people of those earlier days. Its lowest floor is submerged in the river Ganges. The great social reformer Iswar Chandra VidyaSagar and Nobel Laureate Rabindra Nath Tagore stayed in this house during their visits to Chandernagore.

Nandadulal Temple : Built in 1740 by IndraNararayan Choudhury it presents an excellent example of ancient Indian sculptures. There are many fascinating temples devoted to Kali, Siva and other deities, which show marks of brilliant craftsmanship and artistic taste.

Shanderswartala

HOOGHLY DISTRICT : KEY STATISTICS
